Our mission is to provide hand-crafted hats and other threaded goods that are made to withstand life's toughest joys. Every thing we make has to go through our 7 step inspection process. We believe in the fact that good things should last. So if you have a scuff, hole, tear, rip or burn send it back to us and we'll replace it free of charge. People should experience the serenity of the outdoors and we want to be right there with you.
